

Challenge

You will need:
• 2p, 5p and 10p coins (optional)

Make 20p using only 2p, 5p and 10p coins.
Find all the different ways you can do this.
Explain how you know you've found all of the possible ways.

Think about ...

How are you going to record the different ways you found?

Can you use counting in steps, rather than coins, to help you work out the different ways?

What if?

How many different ways can you make 50p using only 2p, 5p and 10p coins?

When you've finished, turn to page 80.
