

Name: _____ Date: _____

Subtracting dice digits

You will need:
• 0–9 dice

Subtract 2-digit numbers and 1s

If you roll 0 or 1, roll the dice again.

$46 - \diamond = \square$

$39 - \diamond = \square$

$21 - \diamond = \square$

$53 - \diamond = \square$

$80 - \diamond = \square$

$67 - \diamond = \square$

$92 - \diamond = \square$

$74 - \diamond = \square$

$15 - \diamond = \square$

$88 - \diamond = \square$

$61 - \diamond = \square$

$32 - \diamond = \square$

$\bigcirc - \diamond = \square$

$\bigcirc - \diamond = \square$

$\bigcirc - \diamond = \square$

$\bigcirc - \diamond = \square$

$\bigcirc - \diamond = \square$

$\bigcirc - \diamond = \square$

Teacher's notes

In the first section, children roll the dice, write the number rolled in the diamond and write the answer in the box. In the second section, children write their own two-digit number in the circle. They roll the dice, write the number rolled in the diamond and write the answer in the box.
