Subtraction

$74 - 30 = \square$

$97 - 60 = \square$

$49 - \square = 29$

$\square - 50 = 35$

$\square = 93 - 80$

$82 - 20 = \square$

$\square = 51 - 40$

$56 - \square = 26$

What to do

- Ask your child to work out the missing numbers in the addition and subtraction calculations. Encourage them to use the 1–100 number square to help them.

Take turns with your child to make up similar questions to the ones on this sheet. Write them on the back of this sheet and challenge each other to answer them.
