

Name: _____ Date: _____

Animal addition and subtraction

Add and subtract a 'near multiple of 10'
to or from a 2-digit number

To add 21: add 20, then add 1 more.
To add 19: add 20, then subtract 1.

$33 + 21 = \square$

$28 + 19 = \square$

$15 + 41 = \square$

$27 + 59 = \square$

$54 + 31 = \square$

$52 + 69 = \square$

To subtract 11: subtract 10, then subtract 1 more.
To subtract 29: subtract 30, then add 1.

$46 - 11 = \square$

$58 - 29 = \square$

$67 - 11 = \square$

$75 - 49 = \square$

$93 - 71 = \square$

$84 - 59 = \square$

What to do

- Ask your child to work out the answers to the addition and subtraction calculations. They can use the hints shown in the boxes to help them.

Using the back of this sheet, take turns with your child to write some more calculations involving a 'near multiple of 10' (with 1 or 9 ones) being added to or subtracted from a 2-digit number. Challenge each other to answer the questions within a set amount of time.
