Time problems

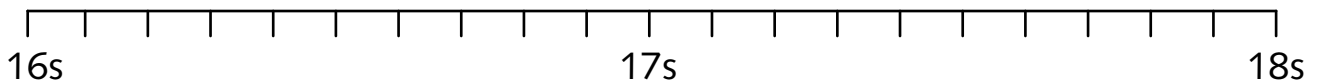

Solve simple measure involving decimals

Five children ran 100 metres.
These are their times.

Name	Time taken
Milly	16.3s
Martin	17.2s
Fred	16.9s
Martha	17.5s
Florence	16.7s

1 Put all the children's times on the number line.

2 Who ran the fastest?

3 Fill in the table on the right to show the times in order from the shortest time to the longest time.

Name	Time

4 Round everyone's times to the nearest second.

Name	Time to the nearest second

5 Everyone wants to make sure they run 2 seconds faster next time. What will their new times be?

Name	Time
