

Name: _____ Date: _____

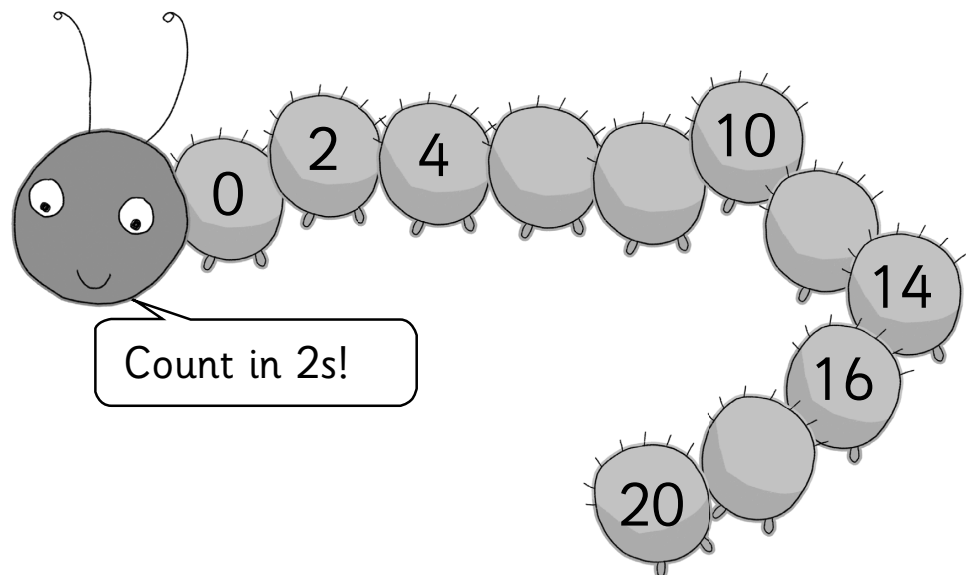

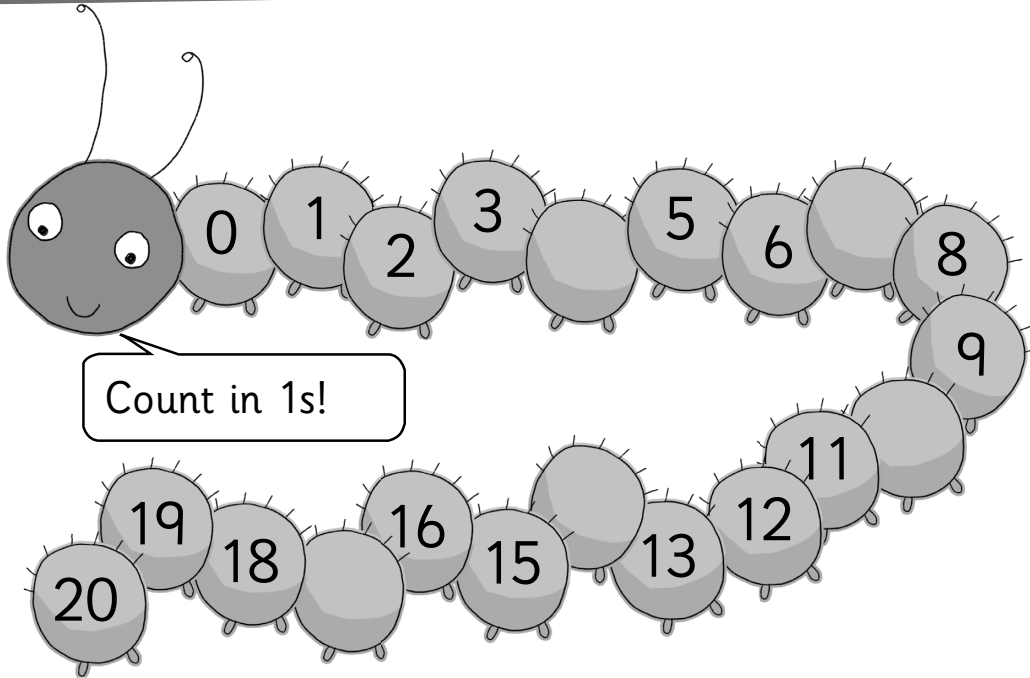

Counting on in 1s and 2s

- I can count on in 1s and 2s

You will need:

- glue
- scissors

What to do

- Cut out the numbers and arrange them in a row. Look at the first caterpillar. It is counting in 1s. Count on in 1s from 0, pointing to each number or space on the caterpillar. Find the missing number in the row of cut-out numbers. Glue the correct numbers to complete the sequence from 0 to 20. Do the same for the second caterpillar, this time counting in 2s.
