# Fraction flags

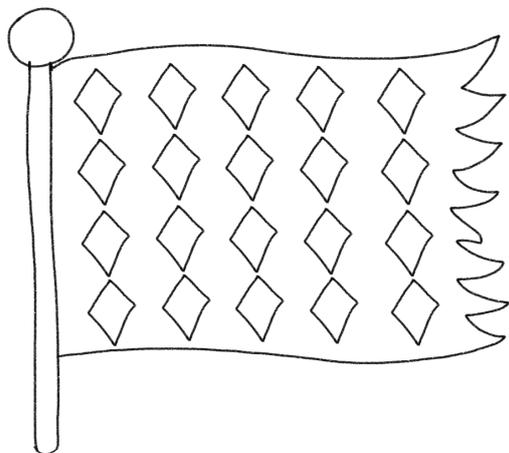

Find one quarter of a number or set of objects

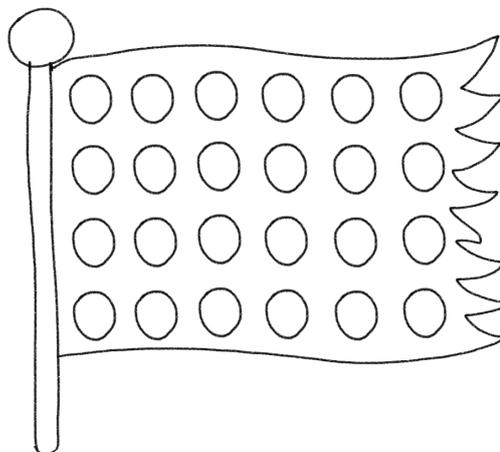

## You will need:

- scissors
- glue
- coloured pencils

## Teacher's notes

Children cut out the labels from the bottom of the sheet. They count the spots, stars or diamonds on each flag and match the label that shows its total, then glue it in place. Finally, they colour one quarter of each of the patterns, and complete each sentence to show this number.

One quarter of 16 is .

$\frac{1}{4}$  of 12 is .

$\frac{1}{4}$  of 24 is .

One quarter of 20 is .
