

Name: _____ Date: _____

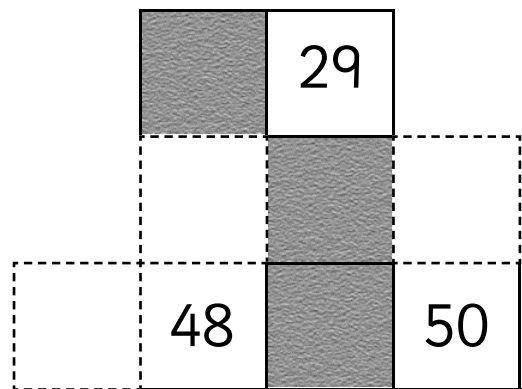

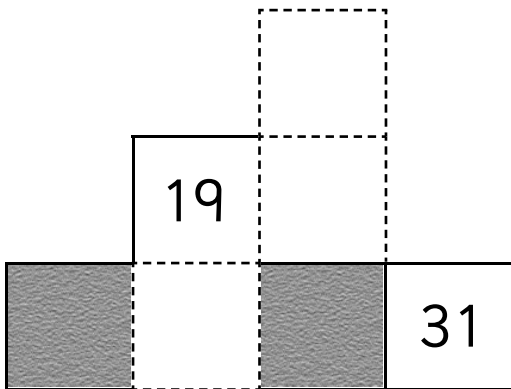

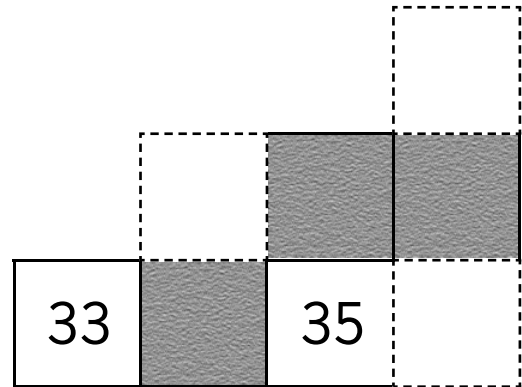

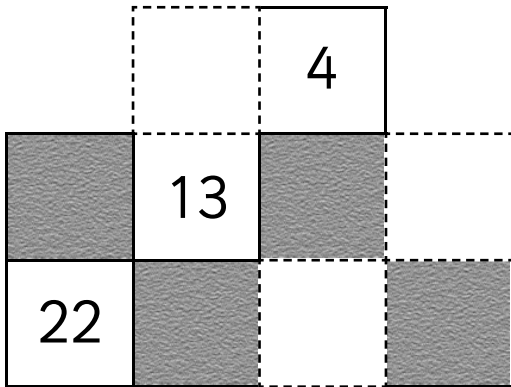

Building blocks

Solve problems about place value

You will need:

- scissors
- glue

Teacher's notes

Tell the children that each set of building blocks is part of a 1–100 square. Ask them to cut the numbers from the bottom of the sheet. Tell the children that these numbers belong on the white blocks. Children put the numbers into the correct positions then glue them into place.

24	40	29	47	3	10
