# Metric and imperial card game (I)

Know the imperial unit pounds (lb) and the rough metric equivalents in kg and g

**You will need:**

- scissors

Play this game with a partner.

- Cut out the cards and place them face down on the table.
- Take turns to turn over two cards. If a card in imperial units is approximately the same as a card in metric units, the player keeps both cards and continues with another turn.
- If the cards do not match, the player puts them back on the table in the same place. That player's turn is over.
- The winner is the player who collects more pairs of cards.

2 lb	1 lb	$\frac{1}{2}$ lb	$\frac{1}{4}$ lb
$2\frac{1}{2}$ lb	3 lb	4 lb	5 lb
1000 g	500 g	250 g	125 g
1 kg 250 g	$1\frac{1}{2}$ kg	2 kg	2.5 kg
