Subtraction detective

Subtract 2-digit numbers and 1s

$17 - 4 = \square$

$28 - 7 = \square$

$46 - 3 = \square$

$39 - 5 = \square$

$55 - 3 = \square$

$79 - 8 = \square$

$66 - 2 = \square$

$98 - 4 = \square$

$47 - 6 = \square$

$57 - 8 = \square$

$34 - 7 = \square$

$61 - 5 = \square$

$86 - 9 = \square$

$72 - 4 = \square$

$85 - 7 = \square$

$24 - 6 = \square$

$43 - 5 = \square$

$91 - 8 = \square$

Teacher's notes

Children find the answer to each subtraction calculation. The first nine questions do not cross the tens boundary. The final nine do cross the tens boundary. Children can use a 1–100 number square or number line for support if necessary.
