

Date: _____

Subtraction stars

Subtract 2-digit numbers and 10s

$42 - 30 = \square$

$28 - 10 = \square$

$69 - 50 = \square$

$75 - 40 = \square$

$51 - 20 = \square$

$83 - 70 = \square$

$97 - 90 = \square$

$74 - 60 = \square$

$99 - 80 = \square$

$36 - 20 = \square$

$62 - 50 = \square$

$82 - 30 = \square$

$91 - 60 = \square$

$34 - 10 = \square$

$88 - 80 = \square$

Teacher's notes

Children work out the answers to the subtraction calculations. They can use either Base 10 material or a 1-100 number square for support, if necessary.
