Mystery numbers

Find missing numbers

$$47 + \square = 67$$

$$\square + 50 = 72$$

$$60 + \square = 91$$

$$\square + 29 = 99$$

$$68 = \square + 30$$

$$85 = 25 + \square$$

$$68 - \square = 58$$

$$93 - \square = 43$$

$$\square - 30 = 14$$

$$\square - 70 = 17$$

$$\square = 86 - 30$$

$$\square = 69 - 50$$

Teacher's notes

Children work out the missing number for each addition and subtraction calculation. They can use either Base 10 material or a 1–100 number square for support, if necessary.
