

REVIEW

Our **question** was...

If we change

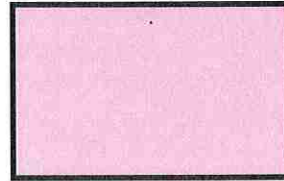

what will happen to

?

Which **prediction** most closely supports the results?

Identify what happened...

.....
.....
.....

Describe what happened...

.....
.....
.....

Explain why it happened...

.....
.....
.....

Apply this knowledge to the wider world/other areas of science...

.....
.....
.....

Were there any **unusual results**? Why?

.....
.....
.....

What can you do to improve your investigation?

How could you change your plan to obtain better results or regularity?

What could you investigate next?
