

WALT: plan and write a chapter in own version of 'Sabryna and the River Spirit'.

Activity 1

Read Chapter 1 – this is where Sabryna walks up the mountain and meets the River Spirit for the first time.

You will be rewriting this chapter in your own words and will use your very own River Spirit which you created last week, who will appear in this chapter of the story. The setting you also created will be where Sabryna meets the River Spirit for the first time.

Activity 2

Plan your chapter – see story plan template. You should only plan for 5-10 mins max before you start writing this chapter of the story. Remember – use key words to plan and not full sentences. These will spark ideas when you're writing.

Activity 3

Once your plan is finished, start writing your own version of the chapter, using your plan and VCOP tick sheet: to ensure all standards are met. Good practice is to always reread each sentence immediately after you have finished writing, to make sure it sounds right.

Time

1. 5-10 mins to plan.
2. 50 mins to write and complete chapter.

If you finish well before the time given, this may be because you haven't given the reader enough information. This is a short chapter, however I would be expecting to see quality to detail and would be expecting most standards on your VCOP tick sheet ticked off?
