

# Christmas Colour by Number Bonds within 20

Solve the calculations in the picture. Colour the picture by matching the answers to the colours in the table.

14	red
15	white
16	light blue
17	dark blue
18	yellow
19	green
20	brown

Challenge:

True or false?  
Explain your reasons.

$12 + 4 = 11 + 5$

# Christmas Colour by Number Bonds within 20 **Answers**

14	red
15	white
16	light blue
17	dark blue
18	yellow
19	green
20	brown

Challenge:

**True**

**12 is one less than 11, but 4 is one less than 5, so both number sentences have a total of 16 and are therefore equal.**
