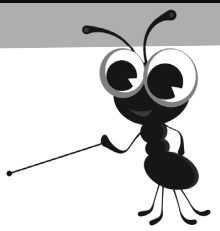
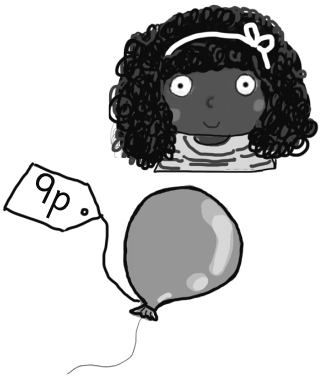
Penny problems

Know addition and subtraction facts to 20

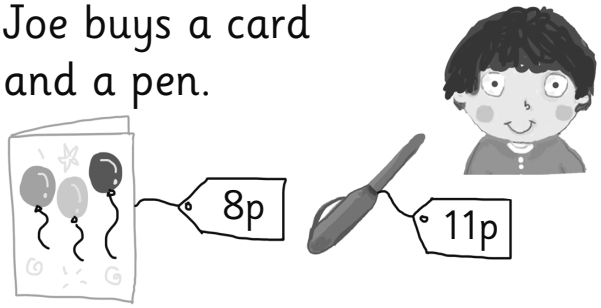


Ellia has 20p. She buys a balloon. How much does she have left?



Show her change.

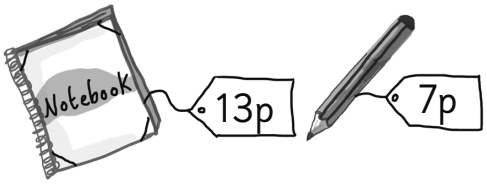
Joe buys a card and a pen.



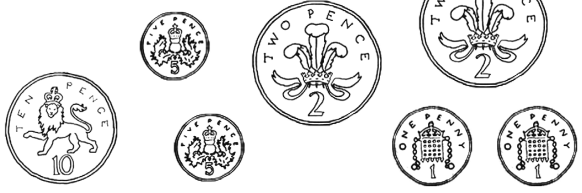
How much does he spend?

Show his total.

Maya buys a notebook and a pencil. How much does she spend?



Show her total.



Leon has 20p. He buys a dinosaur.

How much does he have left?

Show his change.

Teacher's notes

Children complete each money problem, reading each one carefully to decide whether it is an addition or a subtraction calculation. They then draw a ring around the coins to show each character's change or total amount spent.
