

Name: _____ Date: _____

Written addition

Add two 2-digit numbers using the expanded written method

$$37 + 16$$

$$30 + 7$$

$$\underline{10 + 6}$$

$$\underline{40 + 13} = 53$$

TO

37

+ 16

13

40

53

$$48 + 13$$

$$40 + 8$$

$$\square + \square$$

$$\underline{\square + \square} = \square$$

TO

48

+ 13

11

$$25 + 57$$

$$20 + \square$$

$$\square + 7$$

$$\underline{\square + \square} = \square$$

TO

25

+ 57

$$36 + 47$$

$$\square + \square$$

$$\square + \square$$

$$\underline{\square + \square} = \square$$

TO

36

+ 47

Teacher's notes

Children answer the question by partitioning both numbers, as shown in the example. They then answer each question by adding the ones and tens separately without partitioning.
