Name: _____ Date: _____

Counting objects by grouping

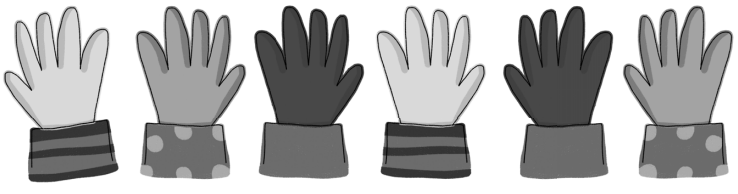
- I can count in groups of 2, 5 and 10

You will need:
- pencil

0	2		6		10		14	16	18	20

There are ☐ socks.

0	5		15			30		40	45	50



There are ☐ fingers.

0	10		30	40		60		80	90	100

There are ☐ flowers.

What to do

- Look at the first number track. This shows counting in 2s. Count on in 2s from 0. Write the missing numbers into the spaces on the track. Then look at the pairs of socks. Count these in 2s. Write the total into the space. Do the same to find the missing numbers in the 5s and 10s number tracks, and find the total numbers of fingers and flowers.
