## An Interview with Mrs Carey

By a Trinity Times Reporter

Mrs Carey is a part-time teacher in Class 2. What she likes about our school is: the family atmosphere, the behaviour of the children and being part of the team! Mrs Carey enjoys her job because she loves being with children. She has been working at Trinity for approximately 18 years. Before coming to our school, Mrs Carey taught at a different school.

Her secret talent is craft work, making a lot of Birthday and Christmas cards. Furthermore, she admires President Obama because he is the first black president of the United States of America.

Did you know? When Mrs Carey was at school, she enjoyed gymnastics and English! If Mrs Wesley was to cook her favourite meal, she would have: seabream on a bed of mashed potatoes with creamed leeks, followed by rhubarb and custard.

Finally, if Mr Rowe let her have a day off, she would climb to the top of a mountain.

## AN INTERVIEW WITH MRS. FISHER

Mrs Fisher works as a teaching assistant in Class 1, helping them to learn. The thing she likes about our school is that the children are delightful, caring and hard-working. Mrs Fisher likes her job because she discovers that every day is different. She has worked for approximately 2 years at Trinity.

Before Mrs Fisher came to our school, she worked at Meole Brace Primary School with Year 5's, who were very different to Reception and she is still a director of a construction company. The hidden talent that she has is that she can play football. The person who she admires the most is Prince Harry because he is so down to earth; he gives time to help people who have less fortunate than him, she thinks he's fun. At school, she enjoyed: Sports, writing stories and most of all she liked seeing her good friends. If Mrs Wesley was to cook her favourite food it would be a plate of sushi. If Mr Rowe let her have a day off she would be in London, shopping for some clothes and souvenirs .

# VICTORY!

## Fantastic Female Football

On Saturday 7th May 2016, seven fantastic footballers enthusiastically played in their Small schools final at the Greenhous Meadow (the new Meadow).

When everyone had arrived, photographs were taken outside the stadium with Mr Pittaway, Mr Price and Mr Pullen (our coaches -who never gave up and always give it there all).

During this morning, the girls played St John the Baptist in two 15 minute halves.

As half -time approached, Charley Glover scored with an outstanding goal in bottom-left corner to make it 1-0 to Trinity. A few minutes later, Millie Pullen came running down the pitch to score another amazing goal, making it 2-0 as the whistle blew at half-time. In the second half, the other team scored a lucky goal against our goalkeeper (Emma Trow).

Due to some fancy footwork from the team, Charley was one -on -one with the goalkeeper so she took a shot which made it 3-1. Victory was in the girl's hands, making Mr Pittaway one happy man!

## An interview with Mr Rowe

The five writers of *Trinity Times* interviewed our head teacher, Mr Rowe. He told them that he loves his job a lot because he likes the way everybody works together and they are always happy. He has been working here for just over 4 years and before he came here, he was head teacher at a different school and had a variety of other jobs, from a postman to an office job.

Mr Rowe believes he has no 'secret' talents but we all know he can play the guitar and ukulele. He admires people who have overcome great difficulties to succeed in whatever they do.

When Mr Rowe was at school he enjoyed History. His favourite meal would be curry. If he was given a day off by...well...himself...he would play some board games!
