

5 1 2 7

Use all the number cards above in the calculation to make a number **LESS** than 55.

$$\begin{array}{r} \square \square \\ + \square \square \\ \hline \end{array}$$

Write the missing digits in the boxes.

1.

$$\begin{array}{r} 4 \square 7 \\ + 1 8 \square \\ \hline 6 3 9 \end{array}$$

2.

$$\begin{array}{r} 3 6 \square \\ + 4 \square 4 \\ \hline 8 1 2 \end{array}$$

3.

$$\begin{array}{r} 3 0 \square \\ + 2 \square 8 \\ \hline 5 2 6 \end{array}$$

4.

$$\begin{array}{r} 4 3 \square \\ + 1 \square 8 \\ \hline 6 0 5 \end{array}$$

2 4 3 1

Use all the number cards above in the calculation to make a number **LESS** than 44.

$$\begin{array}{r} \square \square \\ + \square \square \\ \hline \end{array}$$

Write the missing digits in the boxes.

1.

$$\begin{array}{r} \boxed{6} \square \boxed{3} \\ + \boxed{1} \boxed{9} \square \\ \hline \boxed{8} \boxed{1} \boxed{8} \end{array}$$

2.

$$\begin{array}{r} \boxed{7} \boxed{8} \square \\ + \boxed{1} \square \boxed{5} \\ \hline \boxed{9} \boxed{0} \boxed{9} \end{array}$$

3.

$$\begin{array}{r} \boxed{3} \boxed{6} \square \\ + \boxed{4} \square \boxed{7} \\ \hline \boxed{7} \boxed{9} \boxed{5} \end{array}$$

4.

$$\begin{array}{r} \boxed{3} \boxed{5} \square \\ + \boxed{3} \square \boxed{5} \\ \hline \boxed{7} \boxed{0} \boxed{0} \end{array}$$

5 1 3 9

Use all the number cards above in the calculation to make a number **LESS** than 77.

$$\begin{array}{r} \square \square \\ + \square \square \\ \hline \end{array}$$

Write the missing digits in the boxes.

1.

$$\begin{array}{r} 3 \square 7 \\ + 1 1 \square \\ \hline 4 8 5 \end{array}$$

2.

$$\begin{array}{r} 4 9 \square \\ + 1 \square 4 \\ \hline 6 2 2 \end{array}$$

3.

$$\begin{array}{r} 1 8 \square \\ + 2 \square 6 \\ \hline 4 1 0 \end{array}$$

4.

$$\begin{array}{r} 6 5 \square \\ + 1 \square 6 \\ \hline 8 0 0 \end{array}$$
