

Complete the chart below to show each number divided by 10, 100 and 1 000.

Number	÷ 10	÷ 100	÷ 1 000
4 567			
369			
85			
76 234			
236.7			
89.1			
127 897			

Now complete these number sentences:

1. $23 = 230 \div \square$

2. $47 = 4700 \div \square$

3. $2.1 = 2100 \div \square$

4. $5.68 = 568 \div \square$

5. How many times larger is 5 748 than 57.48?

6. How many times smaller is 0.456 than 45.6?

7. If a lottery prize of £345 500 was shared between 100 people how much would they each receive?

Complete the chart below to show each number divided by 10, 100 and 1 000.

Number	÷ 10	÷ 100	÷ 1 000
2 468			
401			
96			
83 670			
145.2			
78.9			
721 730			

Now complete these number sentences:

1. $35 = 350 \div \square$

2. $54 = 5\,400 \div \square$

3. $4.3 = 4\,300 \div \square$

4. $6.09 = 609 \div \square$

5. How many times larger is 2 516 than 25.16?

6. How many times smaller is 0.753 than 75.3?

7. If a lottery prize of £567 400 was shared between 100 people how much would they each receive?

Complete the chart below to show each number divided by 10, 100 and 1 000.

Number	÷ 10	÷ 100	÷ 1 000
3 165			
777			
60			
48 790			
150.6			
88.3			
840 050			

Now complete these number sentences:

1. $61 = 610 \div \square$

2. $37 = 3700 \div \square$

3. $9.2 = 9200 \div \square$

4. $3.03 = 303 \div \square$

5. How many times larger is 1 555 than 15.55?

6. How many times smaller is 0.769 than 769?

7. If a lottery prize of £1 200 200 was shared between 100 people how much would they each receive?
