

What do I know about Dogs.

They're loyal and love being around humans.

A dog's nose print is as unique as a person's fingerprint!

They can run quickly and for a long time.

Dogs only sweat through the pads on their paws.

Dogs eat meat and some fruits and vegetables.

When a puppy is born, their eyes aren't open.

Dogs carry out important jobs like looking for missing people and helping on the farm.

Dogs come in all different shapes, sizes and colours.

They are very intelligent and some can even read!
