

Sources & Evidence

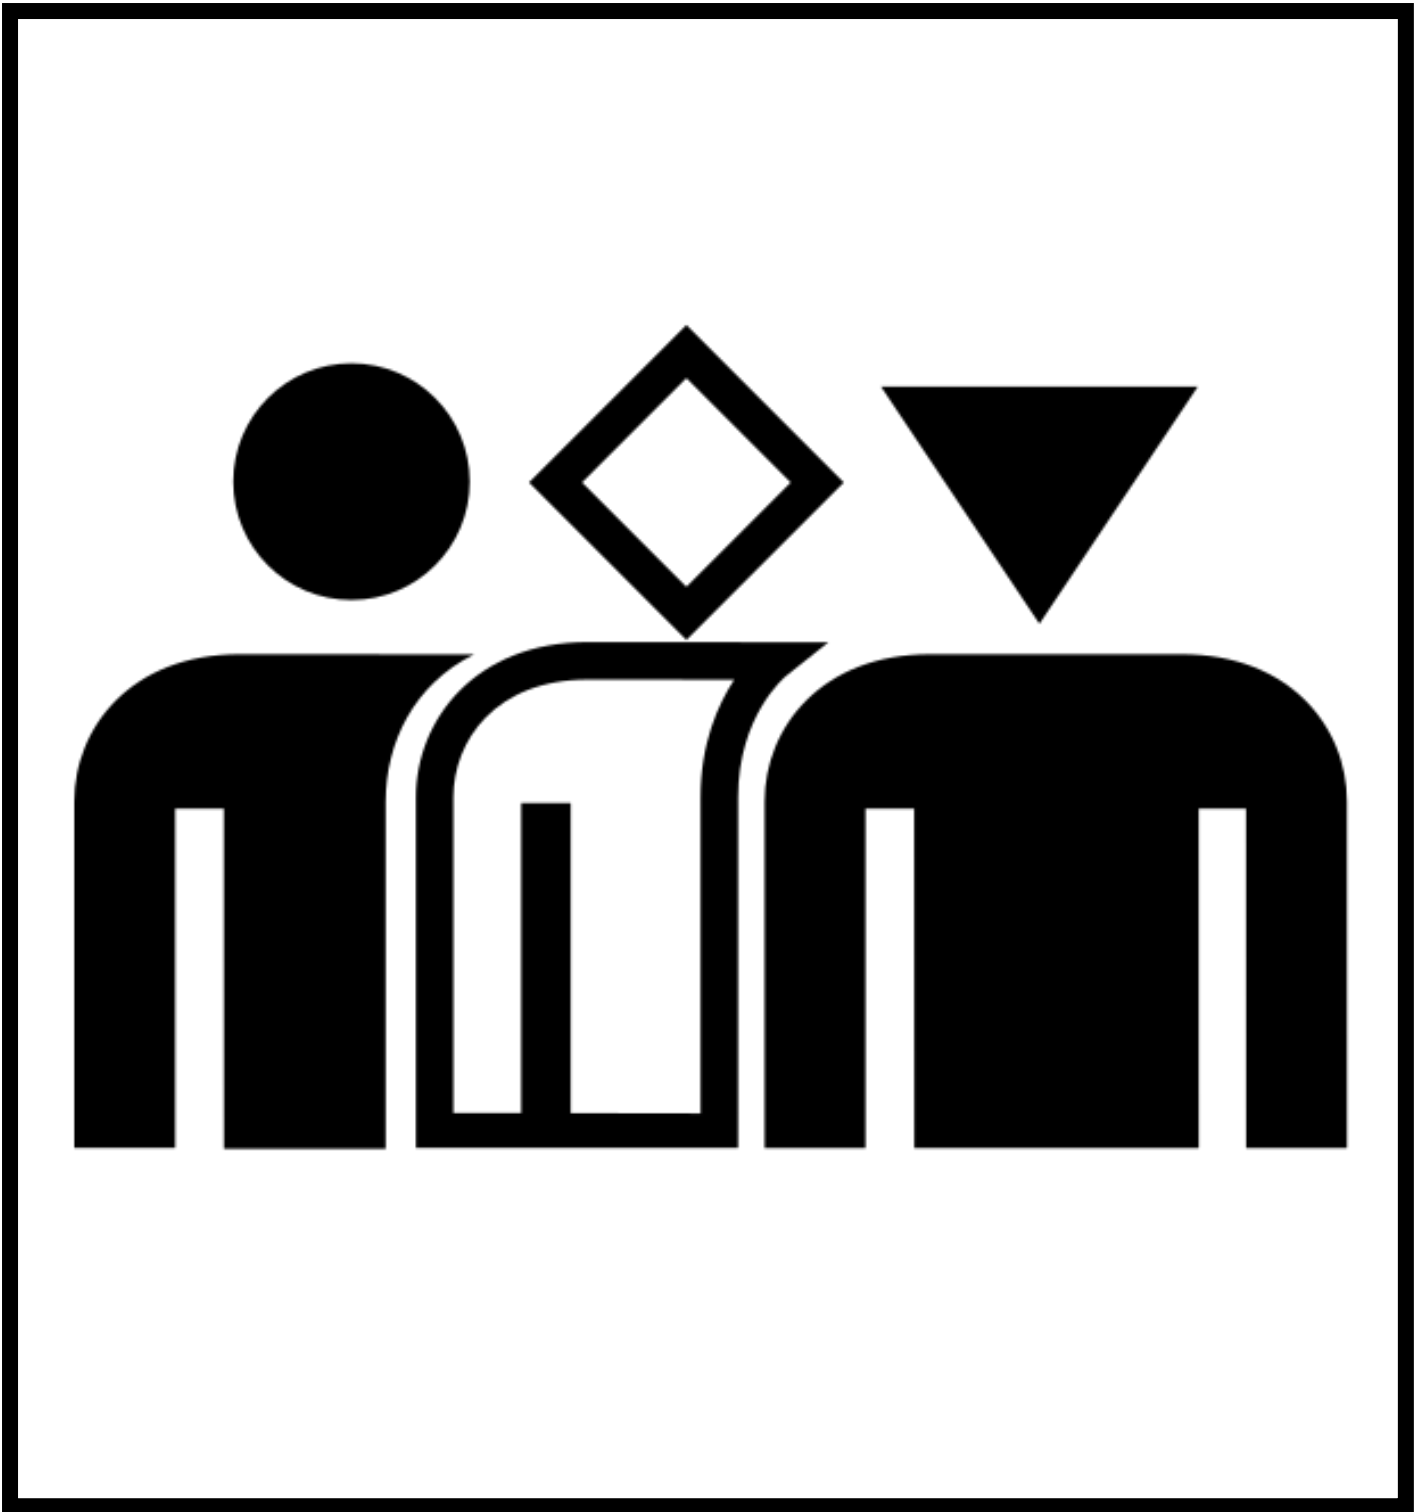

Historical Interpretations

Causes & Consequences

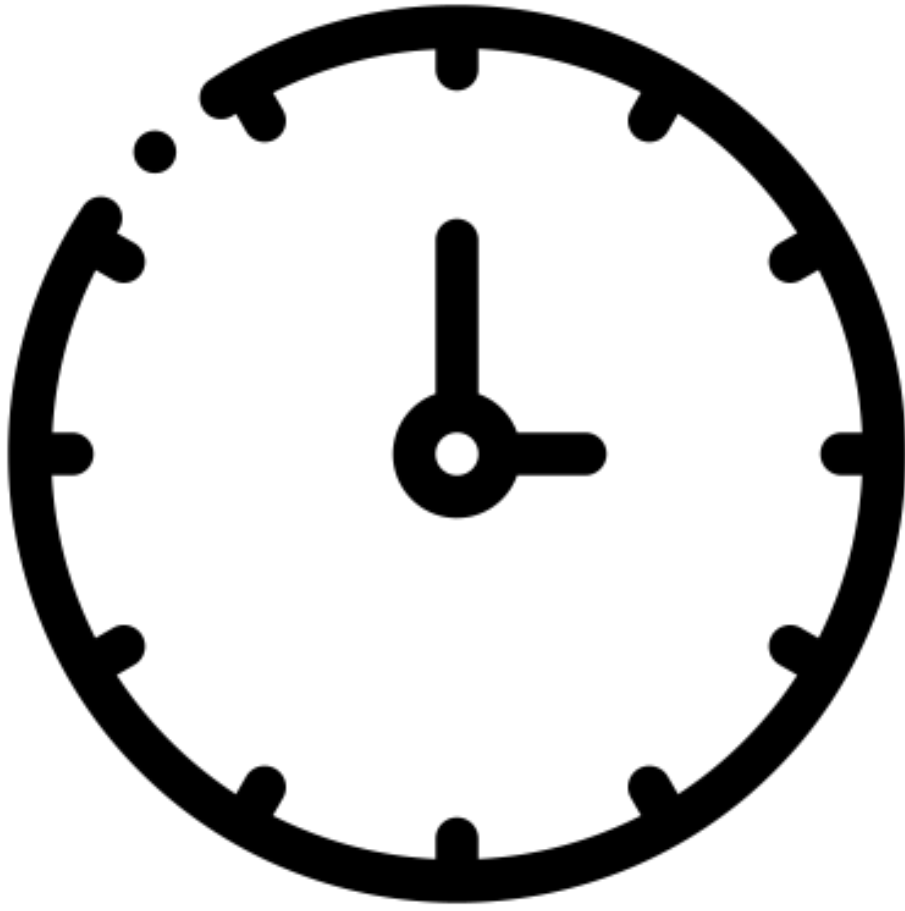

Change & Continuity

Similarities & Differences

**Historical
Significance**

Chronology

Sources & Evidence	Using sources to gather evidence to make interpretations and informed claims about the past.
Historical Interpretations	Interpretating past events from sources and evaluating how and why interpretations might be different.
Causes & Consequences	Making judgements about why and how an event occurred and discovering what the consequences were from the event or from the actions of others.
Change & Continuity	Analysing the extent, nature and/or pace of change over time.
Similarities & Differences	Comparing similarities and differences between groups, places or societies within or across time periods.
Historical Significance	Determining and judging the historical significance of an event.
Chronology	Placing historical events and/or people in time order of when they occurred in history.
