Summer Test 4

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 15 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ❚❚ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

▶ **Now we are ready to start the test.**

		Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.			
1	What is ten more than fifty-eight?	68	NPV
2	Halve twenty-two.	11	F
3	Add twenty-eight to sixty.	88	AS
4	Look at your answer sheet. Circle the vertical line.			PS
5	Take nine away from seventy-three.	64	AS
6	Look at your answer sheet. What is the value of the digit seven in the number?	70	NPV
7	Double fifteen metres.	30 m	MD/M
8	What are twelve threes?	36	MD
9	Write the number five hundred and six in digits.	506	NPV
10	What is the sum of eight and one hundred and seventy?	178	AS

		Answer	Topic
For this group of questions you will have 10 seconds to work out each answer and write it down.			
11	How many millilitres are there in one and a half litres?	1500	M
12	Look at your answer sheet. Draw an arrow on the number line to show the position of thirty-six.	29 ——▼——— 43	NPV
13	Twenty-six parents come to see Class Three's show and thirty-eight parents come to see Class Four's show. How many parents are there altogether?	64	AS
14	Playtime starts at ten to eleven, and finishes at ten past eleven. How long is playtime?	20 minutes	M
15	Circle the calculation that is an inverse of three plus eight equals eleven.	11 − 8 = 3	AS

Now put down your pen or pencil. The test is finished.

> NPV = Number, place value   AS = Addition and subtraction   MD = Multiplication and division   F = Fractions
> M = Measurement   PS = Properties of shapes   PD = Position, direction   S = Statistics
