Name: _____ Date: _____

Delivery rounds

Convert between grams and kilograms to solve problems.

The table shows the mass of five daily newspapers.

Newspaper	Echo	Express	Globe	Star	Times
Mass (g)	240	300	150	250	400

Three children have a newspaper round and each child delivers:

- 20 newspapers
- at least two copies of each newspaper
- a different set of newspapers
- newspapers with a total mass that is greater than 4·5 kg and less than 6 kg.

Work out which newspapers each child could have in their delivery bag.

Title of newspaper	**Bag 1**		**Bag 2**		**Bag 3**	
	Copies	**Mass (kg)**	**Copies**	**Mass (kg)**	**Copies**	**Mass (kg)**
Echo						
Express						
Globe						
Star						
Times						
Totals	20		20		20
